The Rank of Our College

Never before in the history of the State Teachers College has such a high standard of work been attained as that of the present time. Ever since June 22, 1916, a steady increase in the standing of the college has been evidenced. On that date a conference composed of the State Superintendent of Schools and the Presidents of the State University and of the State Teachers Colleges adopted a number of regulations. Among the more significant of which were the following:

"The professional degree for the completion of the 120-hour course given in the teachers colleges and the School of Education of the University of Missouri, shall be the Bachelor of Science in Education," and "when this conference finds that the conditions named in this report have been fully met, college work done in any of the institutions shall be accepted hour for hour in the other institutions and the graduates of the 120-hour course shall be admitted to the graduate School." In the spring of 1921 another regulation was passed, which allows State Teachers Colleges to grant the degree of Bachelor of Arts.

This means, of course, that this college is a standard four-year

Page twelve

college and that the students of this district have the opportunity of obtaining a full college course in Maryville. It means that the high quality of work done here is recognized, and that when one of our graduates goes to the university there will be no question as to his standing. It means that students entering the college department must meet the standard college entrance requirements, and that the distinction between college and secondard work will continue to be sharply made.

Evidence of the high standard of work done in the Northwest Missouri State Teachers College is given by membership in The American Association of Teachers Colleges—class A, The North Central Association of Secondary Schools and Colleges — Senior College Rank, and in the conference of Missouri State Educational Institutions. All of these are standardizing associations of the highest rank.

Membership in the national association means that work done in our college ranks with that done in many other similar institutions in the United States. However, the recognition by the North Central Association shows just how much advance in standing our college has made. In the first place, membership in this organization is granted to both colleges and high schools. All graduates of the high schools which belong to the association are admitted without examination to all colleges which are members. On the other hand, only faculty members who have graduated from colleges accredited by this association are employed by the high schools.

Therefore, in these, respects, membership in such an organization means much to the college. There are other qualifications which the college passed in order to become a member. These are, standardizing of rating of faculty, high school and colleges rank work distinctly separated, and the payment and work of the faculty standardized.

The curriculum has increased along with the enrollment number, all courses are definitely and significantly numbered in accordance with a comprehensive scheme. The requirements for the various diplomas are clearly stated and are in permanent form. The faculty has grown in numbers and in the amount of preparation represented. The departments have been enlarged and are equipped to the high standard expected of a college of this type and rank. A girls' dormitory which will rival any in the state in plan or equipment will be built on the campus this year. The school is a member of the Missouri Intercollegiate Athletic Association, and competes in football, basketball, baseball, track and field athletics.

That the students respond to and appreciate the standing of the college is shown by the enrollment which is an advance of that of any other year in the history of the school.

History of Northwest Missouri State Teachers College

The State Teachers College at Maryville, now in its thirteenth year, has the largest enrollment in its history. The enrollment for the fall term was 319, for the winter 374. This does not include the students in the conservatory of music nor in the demonstration school. This per cent of increase means that the school will soon outgrow the present building.

The General Assembly of 1905 created the Fifth District Normal School. This district includes the counties of Andrew, Atchison, Buchanan, Caldwell, Carroll, Clay, Clinton, Davies, DeKalb, Gentry, Grundy, Harrison, Holt, Livingston, Mercer, Nodaway, Platte, Ray and Worth. Maryville was chosen for the location of the new school. The town, together with Nodaway County, gave eighty-six acres of land for a campus, and \$58,672.50 in cash. The campus was increased to one hundred seventeen acres. The first meeting of the Board of Regents was held September 12, 1905. The first session of the school was conducted in the high school building in the summer of 1908. The corner stone of the administration building was laid Ooctober 12, 1907.

The General Assembly of 1919 passed a law changing the name of the Normal School to that of the Northwest Missouri State Teachers College.

Official news was received September 28, 1921, that \$200,000 appropriated for the building of a new dormitory would be released January 1922. Some tentative plans for the improvement of the campus include the building of an artificial lake and an outdoor theatre, the completion of the new athletic field, and the transforming of the old Seminary into a boys' dormitory.

Mr. Frank Deerwester, of the Normal School at Warrensburg was the first president. He was succeeded in turn by Homer M. Cook, H. K. Taylor, Ira Richardson, and Uel W. Lamkin, who began his official duties as president September 1921.

The number of departments has been increased since the beginning of the school. The conservatory of music has been added. This department now has a director and staff of six teachers. College or high school credit is given for all courses in music. The demonstration

Page fifty-eight

school has been added with a director and five teachers. It includes a kindergarten and the eight grades of the elementary school. The seventh and eighth grades are organized on the departmental plan and are used to illustrate departmental work.

For nearly fourteen years the sturdy craft of the State Teachers College has been successfully steered. Many have been the storms and crisis through which she has passed. All was not smooth sailing. Those trials which at the time were momentous now seem trival. Thus she has embarked upon the great and boundless sea of education.

Thou, too, sail on, O, S. T. C. Sail on O, College, strong and free! Sons and daughters will have no fears, With all their hopes on future years, For great success shall attend thee.

THE GIRLS' DORMITORY

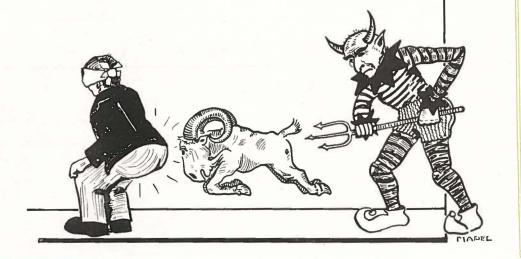

March 1921, the state legislature appropriated \$200,000 for the construction of our girls' dormitory. This dormitory is expected to be one of the best planned and most efficiently equipped buildings in the state.

The structure, 202 feet from north to south and 96 feet from east to west, will be located southeast of the main building and will face the west.

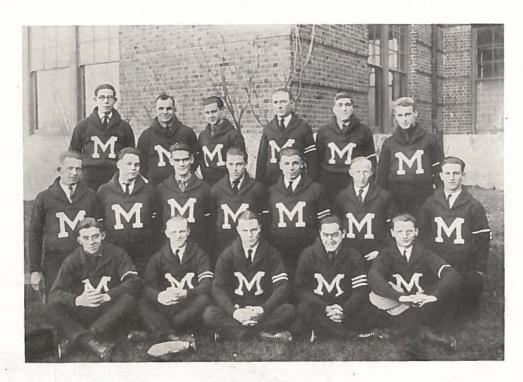

In the basement will be the dining room and cafeteria, a modern kitchen and laundry, quarters for the help, and sound proof practice rooms and studios for the conservatory. The first floor will have 19 double rooms and 4 single ones, while the second and third floors will have 21 double and 4 single rooms, each. On each floor will be a telephone and kitchenette. The parlors and the matron's room will be on first floor. The infirmary and nurse's headquarters will be on third. There is a large sun parlor on the second and the third floors.

This dormitory, when completed, will mean much to our school. The girls will have every convenience and comfort to make life at college happy. It will be ready for use by October 1, 1922.

THE M. CLUB

During the winter quarter of 1921 the letter men of the school held a meeting and organized the M. Club. The organization is made up of college men who have won the school M in some branch of college athletics and its purpose is to promote good sportsmanship and interest in all college activities. One of the most important social functions of the club is the football banquet given annually to the letter men of the Maryville High School to promote good fellowship among the two bodies and to create among the high school men an interest in the college.

THE MIN-NI-CHEE-OCK

"Min-ni-chee-ock" is an Indian word meaning "Active Girls." This name was suggested for this organization by Miss Mary Alicia Owens, an authority on Indian history and legends in this part of the country. This group of Active Girls is composed of all girls who win honors in literary or athletic events. One purpose of the organization is to create an interest in games and sports, debating, public speaking and other literary activities. Another purpose is that of informing prospective students concerning the value of college life and education.

Among Min-ni-chee-ock activities are two annual banquets. One is an Institution Banquet and is given in October. At this banquet plans for the year are made. The other banquet is given in honor of the high school girls of the district who participate in the spring basketball tournament held at the college. Other activities and good times are enjoyed by the "Active Girls" of the college.

The primary aim of the Y. W. C. A. of the college is to serve the college as well as its members in whatever capacity it may, either spiritually or socially. Within its own membership the Y. W. C. A. has as its aim the happiness and welfare of the girls belonging to the association.

On Wednesday morning at ten o'clock the association holds its weekly meeting. The entire program of the Y. W. C. A. is divided into units which look to the study of the bible, to the social intermingling of the members, to the administration of its business and to the general meetings at which lecturers, readers, musicians and other entertainers inspire and entertain their listeners.

The Young Men's Christian Association of the Northwest Missouri State Teachers College was reorganized in October 1921.

The aim of the organization is to help every student in school; to promote fellowship and aggressive Christian work; to train men for service. It is an organization of which every one in school should be proud, and to which every young man should give his loyal support.

An important feature of the organization is its devotional exercises, usually led by one of its members.

Interesting talks on wide-awake subjects for men are frequently given by faculty members and Maryville pastors. Social functions are also an important feature.

EASTERN STAR CLUB

The Eastern Star Club was organized in November 1921. Membership is composed of members of the Order of Eastern Star. The purpose of this club is to initiate and promote a spirit of sociability and close acquaintanceship among its members.

The Eurekan Literary Society was organized October 8, 1913, and since that time has been achieving success. As its dignified name suggests, it stands for all that is noblest and best.

The members are clever, awake and progressive, and everyone works for the betterment of the society. Every effort is put forth to make the weekly meetings interesting and beneficial.

Every year there are social functions of the society to which all look forward.

The big event of the year is the Inter-society contest, in debate, oratory, essay, declamation, and extemporaneous speaking. These contests first began in 1915 and the events that the Eurekans have won since that time: 1916—Charles McReynolds, Oration. 1917—Debate, Ross McReynolds and Lloyd Hartley. Oration, Don Roberts; Reading, Loraine Griener. 1918—Oration, Lloyd Hartley; Reading, Mahala Saville. 1919, Reading, Mrs. Ruth Bird.

1920—Debate, John Phipps and Cleo Richards; Debate, Alice Peery and Ernest McDonald; Oration, Harold Houchens; Reading, Mary Carpenter.

1921—Debate, Iva Lape and William Mapel; Essay, Mabel Cook.

The 1921 Intercollegiate Debate Team was composed of two Eurekans, Iva Lape and Alice Peery.

The Eurekans are always awake and ready and as a student organization are at the top of the list.

The Philomathean Literary Society was first organized in 1910. The meetings were held at night but the society did not do very efficient work under this regime. It was reorganized in the fall of 1913 under a new constitution with Chastain Harrel as president. Other loyal Philomatheans who did much to establish and preserve the high standards and ideals of the society were Mattie Dykes, Henry Miller, Myrtle McPherron and Carrie Coler.

The Annual Home Coming day was first instituted in the fall of 1914. Each year this Home Coming is held on Thursday afternoon during the Fifth District Teacher's Association. Members who are not able to be present send letters which are read at this meeting.

The first Philo play was given in 1914. This has been made an annual event. The last three plays given were: The First Lady of the Land by Charles Nirdlinger, Quality Street by James M. Barrie, and Happiness by J. Hartley Manners.

In the spring of 1915 the first inter-society contest was held. These contests consist of declamation, debate, oration, extemporaneous speaking, essay and song. The Philos won the most honors in the years 1915, 1916, 1917, and 1919. In the years 1918, 1920, and 1921, from a possible seven points The Philomatheans won two each year.

The Philomathean Calendar for the year 1921-1922 is:

The Excelsior Literary Society was organized November 11, 1915. It is the youngest society in the College but is one of the best. All Excelsiors are loyal to their society.

The Excelsiors entered the Inter-Society Contests in the spring of 1916. They had been organized only six months and did not win any honors in this contest.

Since that time they have been growing rapidly. In the spring of 1918 they won two debates, and the oration, in 1919 two debates, in 1920 the essay, and in 1921 the oration and two debates.

The Excelsiors bid the other societies look well to their laurels because they intend to grow in the future as they have in the past.

Probably the last of the school activities to be organized this year was The Rural Club. It is composed of students and faculty members interested in rural education and rural activities. The object of the club, according to its constitution, is to acquaint members with rural life, the conditions, the needs, and the possibilities of the rural school and community; to interest all in rural schools; and thus to render more efficient service to the college and to teachers of this district. The club has made a very successful start; its parties and receptions for rural teachers have been enjoyed by everyone. Next year will see it one of the strongest organizations of the college.

The organization of the Husky Hikers marked the beginning of real interest in girls' athletics. This club has fostered the athletic and recreational spirit among the college girls. It has been the source of healthy good times. The Husky Hikers began October, 1920 with a membership of ten girls. October, 1921 there were one hundred and fifteen active members.

A girl's hiking career begins with short hikes of only five miles. Gradually longer hikes are taken as the hiker's endurance increases. Picnics are often combined with hikes.

The success of the organization is due largely to the interest and enthusiasm of Miss Mary MacLeod, the Physical Director for Women.

The College Quartette is a popular feature in the life of the school and is much in demand by the different organizations, both of the school and the town, for places on their programs. Their repertoire is gradually being extended under the personal direction of Mr. Chas. R. Gardner, and the training which they are receiving will prove of lasting value socially and professionally.

Spring Music Festival

Through the efforts of the Department of Music of the College and the cooperation of the Chamber of Commerce, Maryville will have its first Music Festival from May 11 to May 16. The success of this unusual event should be credited in a large measure to the able direction of Mr. Chas. R. Gardner. All of the numbers will be given in the College Auditorium except those announced for Saturday and Sunday.

The Salzedo Harp Ensemble, a company consisting of seven Italian harpists are give the opening concert Thursday evening, May 11. Their music is little short of angelic, and, in the depth of its inspiration and appeal is most fitting as a prelude to the further events of the week.

"The Feast of the Little Lanterns", a Chinese operetta in two acts will be presented Friday evening, May 12, by the Girls' Glee Club, assisted by the college orchestra. The four solo parts are well supported by the accompanying chorus of thirty-two voices. Gorgeously colored costumes, fans, lanterns, and stage settings combine to make a beautiful and charming effect.

The music memory contest, in which all of the school children of Nodaway County are invited to participate, will be held Saturday morning, May 13, in the Recital Hall at the Conservatory of Music. This contest was promoted by the College with the idea of bringing into the schools of the county higher ideals and standards of music.

The sacred concert to be given Sunday evening, May 14, by the Municipal Chorus, an organization of one hundred and fifty voices ader the direction of Mr. Gardner, consists of selections from some of the great oratorios. The program is also to include solos rendered by Mr. Gardner, organist, Mr. Thomas H. Annett, pianist, and Mr. Christian D. Kutschinski, violinist.

The County Band, an organization of the combined bands of the county, under the direction of Mr. Kutchinski will give its initial performance Monday evening May 15. The program, consisting of numbers from some of the operas and other works of the great masters, will make an enjoyable evening.

The recital by Madame Margarete Matzenauer, Tuesday evening, May 16, is the crowning event of the Music Festival. Her glorious voice together with her magnificent and queenly appearance always gains for the great Hungarian singer the enthusiastic and spell-bound attention of her audience from the moment she steps forth on the stage and sings the first notes of her opening number. Maryville is exceedingly fortunate in having this rare privilege of hearing the world's greatest living contralto.

The Alumni Association

The Alumni Association of the State Teachers College was organized for the purpose of keeping interest in our Alma Mater alive among her graduates. Each year that purpose has been accomplished to a certain extent, and no doubt, the time will come, we hope in the near future, when greater numbers will be fired to more active enthusiasm and to the expression of the same.

The Alumni Association is made up of all who have completed either the sixty-hour courses or the degree course. The officers of this association for the year 1921-1922 are:

LUCILE HOLMES	PRESIDENT
ALMA LUCAS	VICE-PRESIDENT
NELL HUDSON SECRE	TARY-TREASURER

More alumni have paid their dues this year than in preceding years. This shows more active interest and affords support in getting in touch with others who have been more or less inactive. By payment of the alumni fee the payee receives each week a copy of the "Green and White Courier," which is, indeed, a strong link between the college and its former students.

Within the Alumni Association is an organization of the degree graduates, which is supposed in no way to detract from their interest in the main organization. More years of association, perhaps, bind with a stronger tie. For this reason some things can be accomplished from time to time which could not be if it were not for this active organization of degree graduates.

This branch of the Association has for the year 1921-1922 the following officers:

MATTIE DYKES		PRESIDENT
FRANCES HOLLI	DAY	VICE-PRESIDENT
MINNIE B. JAME	SECRET.	ARY-TREASURER

A greater service of the alumni was well brought out in a meeting called for the alumni of the University and all State Teachers Colleges of Missouri, held during the time of the State Teachers Association in St. Louis in November 1921. The alumni of any school will work together for the interest of their school. It is our opportunity, not only to interest people in attending our college, that the educational level may be raised; but by joining with the alumni of other schools to make a stronger band, that something may be accomplished in our state in

the way of influencing constitutional reconstruction. In this way much can be done for education in Missouri. The alumni of Northwest Missouri State Teachers College are ready to support this new state organization of the Alumni of all of the state schools.

The Art Club, whose purpose is to further interest in, and appreciation of the fine arts, perfected its organization in March 1922 after two meetings, presided over by the temporary chairman and vice-chairman, Alice Peery and William Geist, at which time the constitution of the society was adopted. Membership in the club is in itself an honor as only those are admitted to active membership who have special interest or ability in the fine arts and who likewise have a high scholastic standing. It is the intention of the society to inaugurate contests in its own particular field of fine arts for which special awards will be offered. The meetings of the society are held the first Monday evening of each month.

The Green and White Courier Staff which is organized into a class of Journalism under the direction of Miss Winn of the English department is made up of representatives of the various classes and student organizations. The reporters interview the members of the faculty and gather news concerning college events. Members of the staff, in ratation, read copy, typed copy, and proof, correcting all mistakes each time. In fact, all of the work in putting out the finished paper except for the actual printing is done at the college. Members of the class fold and wrap the papers for mailing, as a part of the regular recitation work.

Textbooks are studied in journalism as in any other course and the class meets twice a week for recitation and assignments. Discussions of possible news for the coming week are held. Thru practical application of knowledge obtained in the class room, the staff attempts to make the Courier an interesting and newsy paper. In fact, the Green and White Courier is the official newspaper of the college and student body.

The nineteen twenty one football season opened with brighter prospects for a winning team than at any time before in the history of the school. Ten letter men reported for the squad besides a good number of former high school stars who were determined to give the letter men a race for their old position. The season opened September 30, with the Kirksville bulldogs. The bearcats made a very creditable showing against a heavier and more experienced team by holding them to two touchdowns. From this game on, the team was seriously handicapped by injuries to the players and was only able to score two victories out of eight games; one of them being the second conference game the school ever won.

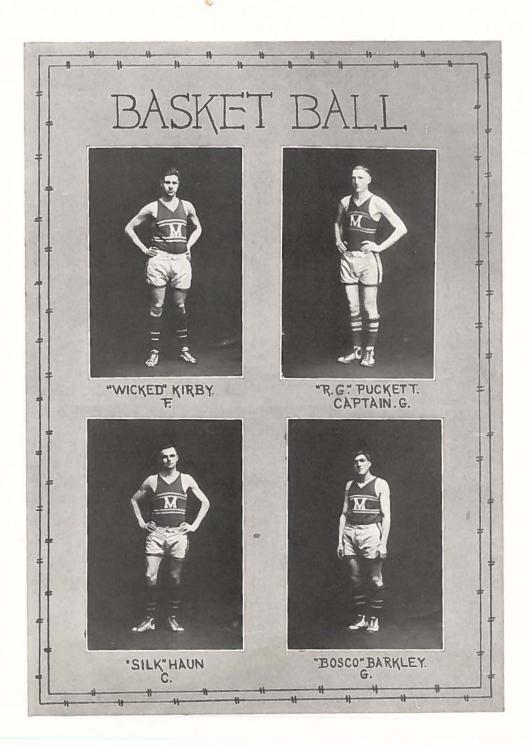

There were no outstanding stars on the team. Every player showed up well but special mention might be made of the work of captain Kirby, Pickens and Foreman, the latter being chosen fullback on the third all Missouri eleven. Eighteen men were awarded a sweater with the school "M." Six men, Mapel, Hunt, McPherron, Lindstrom, Bush and Beaver were awarded sweaters without the school emblem as a reward for their good work on the squad.

Coach Sprong deserves much credit for his work with the team and as only two men, Pickens and Bland, are lost by graduation, he will have an experienced squad around which to build a team next fall.

The nineteen twenty two basketball season was very unsuccessful so far as the number of games won are concerned as the team failed to win a victory out of seventeen games played. Altho five letter men reported for the squad none of them had won their letter the same year so that Coach Sprong had to start the season with a squad unaccustomed to playing with each other and it took time to get the men working together.

The team never during the season played the brand of basketball they were capable of and their scoring ability failed to improve as the season advanced. The team faced an extremely hard schedule playing the best teams in the conference and averaging over two games a week with one hard road trip that would have left any team worn out.

As only one man is lost from the squad by graduation a good team should be placed in the field next year with the experience they have gained this season. The new men winning letters were Graham, Barkley, Foreman, Haun and Beaver besides three old men, Kirby, Sawyers and Pucket. Kirby probably played the best game thruout the whole season, always fighting hard and playing a consistent game.

MARY L. MacLEOD

ATHLETICS FOR WOMEN

Basketball, tennis, hiking and golf are the four principal athletic activities for girls. More interest has been taken this year in girls' athletics than ever before. Girls' basketball has been an unusual success. Tennis tournaments are always held in the spring and summer. Of course hiking has been popular every slightly warm day all winter and every spring day. Golf, is entirely new at the college but many girls are seen in the links learning the game.

In addition to these major sports there are regular classes in Physical Education. That department includes classes in Health Control, Gymnastics, Folk Games, Aesthetic Dancing and Teaching of Physical Education.

The college is justly proud of her girls' basketball team. This team has outclassed every team with which it has contested during the season.

There are several interesting and outstanding reasons for the success of the team. For one thing there are no individual stars. The girls play as a perfect machine passing the ball and pivoting with exceptional skill. The second team also should be highly commended for their faithfulness and hard work which is so essential in developing a first class team. Another direct cause of the success of the team was the close adherence of each member to training rules. This requires great self-control and is difficult for the usual girl.

The training rules which the girls have obeyed are:

- 1. Regular exercise in the open air each day.
- 2. Nine hours sleep out of every twenty-four.
- 3. No eating of pastry.

WALKOUT DAY

Walkout Day—never will it be forgotten by the students of 1921. The seniors started it. The crowd assembled in front of the college building—marched through the business section of the town to the Burlington depot—then to Tunnell Woods. Lucile Holmes was chairman of the "eats." Nothing more need be said of that. The students challenged the faculty for a baseball game and the students won by a score 7 to 4. Although walkout day of former years has been a great event this one was a fitting climax to them all.

HALLOWE'EN PARTY

One of the merriest festivities of the year was staged in the college auditorium when the Husky Hikers, a lively organization of the college, acted as hostesses to the faculty and student body on Hallowe'en night.

Ghosts and witches appeared every where. Bands of gypsies danced wierd dances around the camp fire. Fortune tellers disclosed life secrets. The Black Mystery Woman-Who-Tells Poetry recited hair raising poetry. All guests declared it was truly an All-Witches Night.

HOBO DAY

Yes, Billy went with us to the college on hobo day. We won the prize for being the best hobo couple among hundreds of hobos. We are sure that you will agree with the judges that we deserved special mention. We hope to be permitted to attend many more hobo conventions at the State Teachers College for we had a good time.

THE CHRISTMAS PARTY

December 21, 1921.

The Christmas party is an annual function at the State Teachers College. The faculty of the college at this time act as hosts to the student body.

The decorations, games, and music are all suggestive of the real Christmas spirit which prevails. The telling of stories around the old fashioned fire place keeps alive the home Christmas spirit.

No one who can possibly be there ever misses the Christmas party.

THE COLONIAL BALL

The Colonial Ball given by the seniors and sophomores to the juniors, freshmen and faculty in celebration of Washington's birthday is always one of the gayest and most beautiful social functions of the college year. This year tho there were many handsome and striking costumes, Mary Bailey and Jay Puckett were awarded the prize, the honor of appearing on this page of the Tower.

MAY DAY

The May Day festival of the college took place on the college campus, the fir trees and pines forming a back ground for the May Queen's throne. Juanita Miller gave the prologue, which was followed by a dance by Ora Mae Condon and Sylvia Littlejohn as Puck and Pan. They were joined by the other May day revelers, who marched in a processional. When the Queen and her attendants were discovered in the distance, Puck bade the revelers form a lane through which the Queen might pass to her throne.

Mary Wooldridge, as queen, was preceded by Betty Louise Godsey who carried the crown. Wave Hulet, as maid of honor formally crowned the Queen. The attendants celebrated this crowning with a

song.

The first song "Amaryllis" was followed by a dance "Calif's Abandon" by Nell Hudson and Hazel Louden, who impersonated the yellow daisy and the pink rose. An old English dance "Hewitts' Fancy" was given by a group of forty college freshmen.

Pan reappeared and danced the "Pipes of Pan" to Shuberts'

"Moment Musical."

The ceremonies of the May festival closed with the recessional to the college library where the dancers were joined by the sophomores, seniors and faculty who were entertained by the freshmen and juniors of the college.

EXTENSION

Page one hundred twenty-seven

Extension Department

By extension service we mean any service rendered outside of the college walls thru the personal visitation of the faculty. It may consist of single lectures, of lectures in series, of demonstrations, of educational surveys, of intellectual tests, of rural school inspections, of the judging of debates, of vitalized agriculture short courses, or of recitations and quizzes on definite assignments for study. We desire when ever it is wise and feasible to take this institution to those people who cannot come to it. Thru extension services the college seeks to help individuals prepare for a college career and also to shorten that career. One may improve his services without giving up his regular position. More rapid advance may be made by taking advantage of the opportunities offered by the Extension department, than can be made by attendance at summer sessions only.

Teacher groups are not the only ones who may profit by intensive study of the more cultural courses or by lectures, single or in series, given by visiting members of the faculty; clubs, literary organization, civic improvement groups, community organization and countless other such units may enjoy the advantages offered by the department.

To give an idea of the scope of the extension work in subject matter we list the following as among the courses given during the past year. Latin-American History, The Peace Movement, Contemporary Europe, The Literature of the Bible, Contemporary Drama, Technique of the Drama, Juvenile Literature, Teaching of Mathematics, College Algebra, Economic Geography, Human Geography, Applied Art, Building the Curriculum, Mental Measurements, Home Economics, French, Vitalized Agriculture, and others.

In extension service we are not seeking mere enrollment. We aim to render our usual service to an unusual type of student. Only students particularly anxious to extend their education are expected to enroll in extension courses. Any one who has developed the habit of driving ahead in his study by the force of his own initiative and can take direction covering a large volume of work and thru a faithful execution of these directions return a product worthy of an intelligent and persevering student may enter upon such a course.

Extension work is intended primarily for those not completely occupied in their present employments but which employments keep

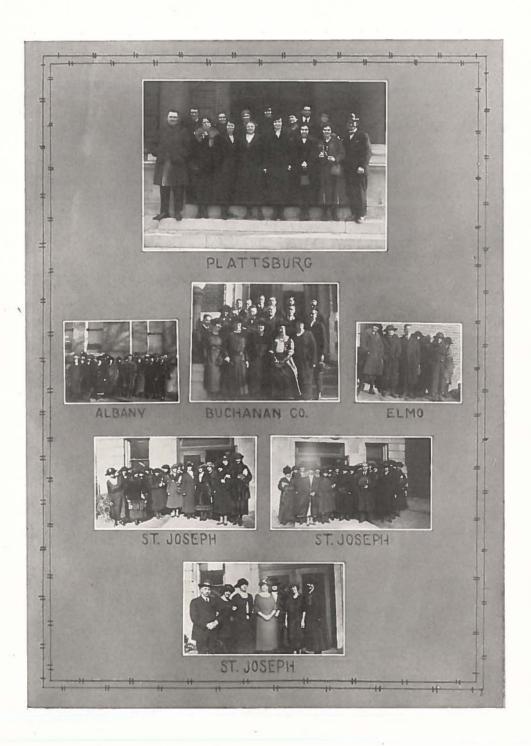

Page one hundred twenty-eight

them from resident study in the college. Such a person may be teaching or he may be other wise engaged. Whenever our Faculty may by any course of instruction brought to a community, make better workmen of the men and woman of that place, we feel a real service has been done the community and its citizens.

The Extension Department was organized in 1916 under the supervision of a committee of the faculty, with Henry A. Foster, history instructor, as chairman. The department served thirty-two individuals However, on account of the war, the work was during the first year. abandoned the following school year, 1917-1918. But when it was continued in 1918-1919 fifty-two people were benefited. In 1919-1920 the number increased to sixty-eight. The next school year 1920-1921 saw an enormous increase, the enrollment being two hundred two. The college authorities realized that it was no longer possible for the faculty committee to care for the demands that were being made for extension work and on November 1, 1921, Mr. Bert Cooper, County Superintendent of Nodaway Schools, took the position as head of the Department. At the present time four hundred persons are taking advantage of the opportunities offered by the Extension Department.

During the past year the department has been reorganized and enlarged to include many types of service besides class work and the various ones mentioned above. It promises to become one of the most important and most useful features of the institution and its activities are being extended into every field.

TOWER P

Page one hundred thirty

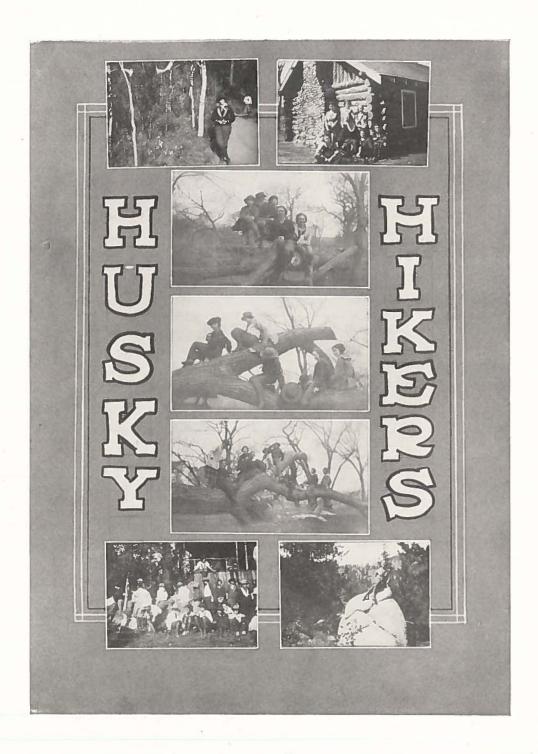

Correspondence Department

To the determined and self reliant student, correspondence study may render a great service. It would not be advisable for those who get their only stimulus from class and school surroundings to take up this type of study.

Correspondence courses are designed to be in content, scope and credit the equivalent of the same course given in residence. They contain a definite amount of work in a given number of lessons. All correspondence courses satisfactorily completed carry a credit equal to that of the same course done in college. However not more than one sixth of the requirements for any certificate, diploma, or degree may be done by correspondence. A maximum of ten semester hours of college credit or two units of high school work, during one school year will be accepted.

The college does not undertake instruction in any considerable proportion of the courses away from library, apparatus and school environment. Many courses are not adapted to correspondence study even in the case of the most persevering student.

The college began instruction by correspondence in the school year 1915-1916. The work was under the direction of the same committee of faculty members who later organized the Extension Department. Only eight students were enrolled for work the first year. In 1916-1917, however, thirty-one persons found this method of study profitable, during the year 1917-1918 the number fell to twenty-three. The next year saw an increase, the number instructed by correspondence being forty-four. During the school year 1920-1921, the enrollment in the Correspondence Department advanced to 138. Thus far in the present school year 122 teachers over the fifth district have enrolled for correspondence work.

THE MODERN FOURTH

Here is a page from the diary of a boy of today:

"Today is the Fourth of July, once a glorious patriotic holiday. In the morning I took a bath and after dinner Pa told me stories about Abraham Lincoln. After supper I had to stay in while Ma read lessons from the Bible and then we all rose and sang "The Star Spangled Banner." Then I went to bed."

"Where is Henry?" asked the neighbor of the lady whose husband he wanted to see.

To a priest came a young woman one day, who had an exaggerated idea of her charms and who confessed she feared she had a besetting sin.

"Faith, daughter," said the priest. "That's no sin, no sin at all. Just a slight mistake, daughter, just a triflin' error in judgment."

FASHION PLATE

"There was a young lady from Lincoln,
Who showed signs of very deep thinkin',
For she said with a smile,
'To keep up with the style,
I buy clothes that always are shrinkin'."

AW, TAKE A CHANCE

"Grandma, can you help me with this problem?"
"I could, dear, but do you think it would be right?"

"No, I don't suppose so, but you might have a shot at it and see."

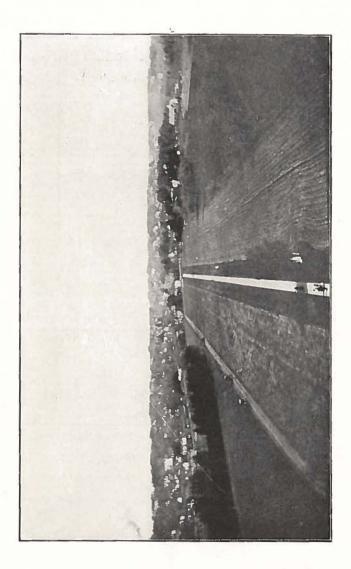

PRAY FOR RAIN

Alice: "Why don't you wear your new silk stockings?"

Ruth: "I'm saving them for a rainy day."

WILL IT COME TO THIS?

Who's the stranger, mother dear?
Look, he knows us—ain't he queer?
Hush, my own, don't talk so wild;
He's your father, dearest child.
He's my father? No such thing—
Father died away last spring.
Father didn't die, you dub;
Father joined the Golfing Club.
But they've closed the club, so he Has no place to go, you see—
No place left for him to roam—
That is why he's coming home.
Kiss him, he won't bite you, child;
All them golfing guys look wild.

APPRECIATION OF THE MARYVILLE CHAMBER OF COMMERCE.

We extend thankful greetings to the Maryville Chamber of Commerce for taking two hundred copies of our annual to be distributed among the rural schools of our district. This has very materially helped us toward the financial success of our issue and is a practical scheme for the advertising of our college.

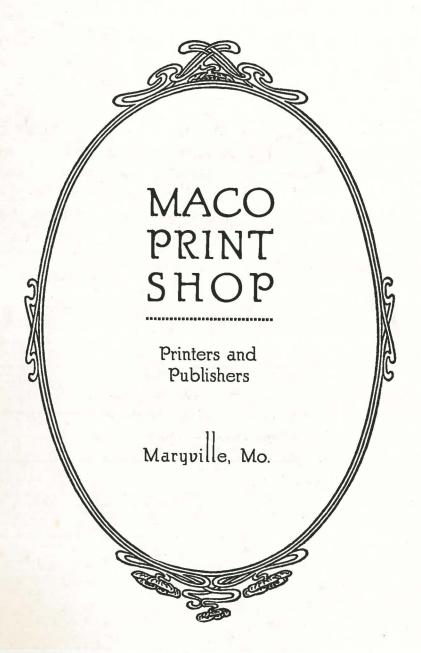

By this plan the Chamber of Commerce carries information about the college to the schools, instead of the individual member advertising his own business.

Unsolicited service is a marker on the hill-tops along the pathway of life and the best evidence of a right conception of ones duty to his fellowman and to society. Your favor to us is an exemplification of these virtues and we will try to estimate it justly.

TOWER

HE TOWER STAFF feels deeply indebted to a number of friends and takes this means of expressing its appreciation of the liberal support received from the different classes and organizations of the college.

The Staff especially wishes to thank the different individuals of these classes who so willingly helped to make this annual a success. We gratefully receive their work and appreciate their co-operation in this project. Their efforts have helped us make this volumn a treasure house for the traditions of old S. T. C.

ROM THE SMALLEST TO THE SECOND L'ARGEST ANNUAL ENGRAVING HOUSE IN AMERICA WITHIN TEN YEARS HAS BEEN MADE POSSIBLE ONLY BY STREN-UPUS EFFORT, EXCEPTIONAL SERVICE AND ENGRAVINGS OF UNQUESTIONED QUALITY. INTRUSTING YOUR ANNUAL TO OUR CORPS OF ART, PLANNING AND ENGRAVING SPECIALISTS INSURES ITS ARTISTIC AND FINANCIAL SUCCESS.
